MY AFFIRMATION OF THE DAY:
"I turn my dream into reality"

I/22

MAGICIAN

☐ POTENT PATH

☐ - MANIPULATION OF POWER

☐ + POWERFUL WILL

Whether we are aware of it or not, every man is a magician that during his life influences and changes oneself, one's surroundings and spiritual consequences. And from what seemingly exist recognizes and forms what it really is. People may be afraid to be a magician, although this word in its country of origin means perfect. And they often rather not act so not to influence anything. But no action is also a magical pursuance of life.

Magician is who captures what exist and from that he creates what it really is. It may be a cup that turns into Grail, geometric shape that turns to a protective circle with magical emission or a man sleeping in a matrix that transforms in the magician. He is able to turn by a magic wand – his true authenticity, his own life in a cosmic mission. This "Magician's path" was then called "Prophet's", because things are supposed to appear there in their real essence, thus not the way we perceive their existence in ordinary material life, but how they really are in their deepest essence.
